Danville Girl is Drugged in New York Taxi, Dead

Mabel Dixon, Who Left Danville to Enter Movies, Succumbs in Harlem Hospital—Chauffeur Held on Her Ante-Mortem Statement.

News was received here last night of the death in New York city under mysterious circumstances of Miss Mabel Dixon, daughter of Mrs. Charles Dixon, of Monroe street, and a beautiful young woman who left this city five or six years ago and who entered upon a stage career in New York.

The information received here is to the effect that Miss Dixon, who went in New York under the stage name of "Dixie Dixon," was found suffering from an overdose of drugs in a taxicab on Riverside Drive. She was removed to a Harlem hospital on Sunday, where she rallied sufficiently to give the police authorities an account of an alleged criminal assault committed, she declared, by a chauffeur named Ryan, who is held in the Tombs without bail in connection with her death. Soon after giving her statement to an assistant district attorney and detectives of New York, she lapsed into unconsciousness and died.

J. Thomas Terrell, who married Mrs. Dixon some years ago, or after Mabel Dixon's father had been killed in a railroad accident, received a telegram yesterday evening informing him that the young woman was seriously ill. He wired back for more specific information from the superintendent of the hospital, stating at the time that he was prepared to go to New York if her condition warranted such a step. The next telegram received stated that the girl had died.

Miss Dixon, whose age is 25 years, is the daughter of Mrs. Mary M. Dixon, who resides on Monroe street. Her father, Charles A. Dixon, was killed about 14 years ago in a wreck on the Southern railroad. He was a brakeman on a freight train. About two years later the widow was married to J. M. Terrell, this being about the time that she began her stage career.

Miss Dixon began her stage career about five years ago when she left Danville for Atlantic City on an excursion later going to New York where she has since been. It was in 1918 near the close of the war that she became acquainted with R. M. Bliss, whom she later married. Bliss was a naval officer and was stationed at Newport, Rhode Island. It was while he was attending a school in which Miss Dixon was a character that they became acquainted.

Elmer, a wealthy broker of Chicago, but his home is in Cleveland, Ohio.

Abbott Is Busy Recruiting Team

Peyton Hatcher, who has taken charge of the Danville baseball club and is preparing for the coming season, has turned the task of selecting a team over to Tommy Abbott, who will manage the tobaccoists and who at present is doing newspaper work in Maine. Mr. Hatcher has turned over all of the contracts for players still bound to Danville and other correspondence in connection with the club and has given him carte blanche in getting together the nucleus of a winning team. Mr. Abbott is a university man and has written in encouraging vein to Mr. Hatcher, who is on his project, to hope to land as tryouts. The Danville manager will report in Danville early in April and the team he brings will have two weeks training before the season opens. The schedule is now being worked out by a special committee appointed by W. B. Branham, president of the Piedmont League.

Mr. Hatcher proposes to devote his entire time to baseball as soon as the season approaches. He has two seven-passenger automobiles in which the players will be transported from place to place for the season.

He also intends to accompany the players around the circuit. Manager Abbott will be given full charge of the field. Mr. Hatcher having thorough confidence in him and believing that he can obtain the best results by giving the new manager executive authority.

Near East Relief Film Is Shown

More than three hundred people were turned away from the Broadway Theatre yesterday afternoon when "Alice in Hungerland" was presented, this being a graphic moving picture showing conditions as they exist today in the Near East. The picture was shown yesterday largely as a form of inspiration in connection with the Near East Week which begins today. While Danville has been assessed a quota of \$4,000 for this relief work no intensive campaign is being made. Reference was made to the movement in nearly all of the churches yesterday and the question of response was left largely to each individual. Cards were distributed these to be returned before the end of the week.

The picture yesterday showed what the American relief organizations are doing toward saving the lives of children and also the degree of distress which is being encountered in that area.

Two German Chemists Sought

(By The Associated Press)
PORT WASHINGTON, N. Y., Jan. 23.—Two children were buried today in a fire, destroying five buildings.

School Child is Run Over By Auto

Mary Estelle Lee Hit by Virgilius Ramos, Joins Her Mother at Hospital—Condition Is Serious.

Mary Estelle Lee, eight-year-old daughter of R. M. Lee, was run over and partially crushed by a car driven by Virgilius Ramos on Brookline Avenue. The accident occurred at the school hour when the little girl, with two other small children, stepped from the sidewalk in front of the oncoming automobile.

The front wheel of the touring car passed over the child's stomach. Mr. Ramos immediately stopped his car and lifting up the little body carried her with all speed to the General Hospital. Arriving here the injured child who was suffering keenly asked that she be not taken there but to Edmunds Hospital, in which institution her mother lies today, recovering from a serious surgical operation she underwent last week. Mr. Ramos at once hastened to comply with the request of the child and the girl was admitted to the hospital and after being given an opiate by attending physician lapsed into sleep. It is impossible at this stage to say what the outcome will be. The injury done by the wheel of the heavy car passing over the child's abdomen may be very serious but just now it is impossible to make extensive survey of the damage and this will be hardly possible until she has reacted from the shock. At the hospital it was admitted that her condition was serious.

For some time the news of the accident was withheld from the mother but with that swift intuition of all women she knew by the anxious looks of her husband and other relatives that something was amiss and, it is understood, she has been told.

The matter was reported to the police during the day and Police Sergeant Edwards asked Mr. Ramos to report to the police station. Mr. Ramos stated that it was his first accident and that the child stepped in front of the car.

At the courthouse Mr. Ramos was charged with an assault. He gave the names of four or five witnesses to the police. Mayor Woodring said that he could not allow any bail until a

Charlie Mangum Is Held for Grand Jury

The case of Charlie Mangum, seventeen-year-old youth, charged with breaking into and robbing the Chimax Barber Shop on Friday night, was this morning sent to the grand jury. The youth pleaded guilty and confessed that he had been drugged with an opiate by attending physician when he was admitted to the hospital.

As the boy is charged with breaking into the store and stealing six razors, valued at \$25, a pistol, valued at \$16.50 and \$10 in cash, Young Mangum was suspended and Detective J. C. Lee and J. N. Campbell soon had him under arrest. He later confessed and told how he had gained entrance through the rear.

Officers Receive Threatening Letter

WATKINSVILLE, Ga., Jan. 23.—Fred Gillen, Oconee county solicitor, today said he has received the message "You'll be dead before Monday night." Gillen said he is conducting an investigation into the lynching of three negroes. The sheriff and deputy have also received threatening letters.

In giving his explanation of the bill Mr. Talbot sought to emphasize the point that the same powers are today vested in the city council as would be under the Anderson bill should it be adopted by the General Assembly.

The mayor threatened to refer the whole matter to the city council.

It now develops that the bill which is engrossing local public interest is not so much Delegate Joseph R. Anderson's measure as it is that of City Attorney Julian Meader. It is learned from City Attorney Richard P. Moss that last Tuesday night, after the council meeting at which the proposed amendment was endorsed, a letter signed by the auditor was given to Mr. Talbot who was leaving that night for Richmond to confer with commissioners there on tax equalization. This letter was addressed to Mr. Anderson, referred to his council's endorsement, and it contained the amendment written out in full legal form by the city attorney and containing just the changes authorized by the council. It may be said therefore that the amendments were fully drawn up in Danville and this explains not only the words "by request" when offered, but the rapidity with which the council's wishes were carried out by Major Anderson.

New Plan to Cut Down China's Arms

Conference Considering a Resolution to Prohibit Importing of Arms Into China.

(By The Associated Press) WASHINGTON, Jan. 23.—As one means of obtaining a reduction in the Chinese army, the arms conference is considering a resolution providing for prohibition of importation of arms into China.

Negro Found With Air in His Veins

DUBLIN, Ga., Jan. 22.—Contrary to the teachings of medical science, a negro convict, Ira Allen, was found here today who had air in his veins, along with blood, according to reports of doctors.

The county physician, Dr. A. T. Coleman, says that when he started to make an intravenous injection in Allen's arm, air hissed out, sounding like a punctured bicycle tire as he inserted the needle.

Another incision was made in another part of the body, with similar results, he said. Other doctors were present at the second operation.

Mrs. Lucille Adams continues quite ill at her home on North Ridge street.

A COMMUNICATION

The Editor of Register and Bee, Gentlemen:

Please run the following in your next issues, as a reminder of the serious plight the citizens of Danville are being placed:

I believe that the citizens of Danville should immediately have a mass meeting and express their opinion in regard to the recent bill that the city council has requested Mr. Anderson to pass. The citizens of Danville were not informed nor did they have any idea that the council desired to appoint the city attorney and tax collector and deny the public the privilege of electing who they deem proper. Do the citizens want to elect these officers or not? If they do, Mr. Anderson should be informed of same immediately.

The citizens are having put over on them just what they were reminded of at the Jefferson Hall 18 months ago, they would get.

Most respectfully,

H. J. McGuire
Danville, Va., Jan. 23, 1922.

ATTENDS SUNDAY-SCHOOL TRAINING SCHOOL

Rev. J. Calleway Robertson, pastor of Mount Vernon M. E. church, leaves today for Winston-Salem, N. C., where he will attend a Sunday-School training school, which will continue through this week.

—Mrs. W. R. Vernon has been removed from the General hospital to the home of her daughter, Mrs. E. T. Seay.

—Mrs. Frak Adams, of Dallas, Tex., is visiting Mrs. E. C. Stevens.

Wilkes Masquerades As Woman, Report

CRAWE, Jan. 21.—Dr. T. C. Harris, several days ago was driving his machine toward Kenbridge, Lunenburg county, when, a short distance from the village, he met a well-dressed "woman," carrying a heavy suitcase and headed in the same direction as the doctor. Wishing to be courteous, Dr. Harris stopped and took the "woman" into the car and completed the trip to Kenbridge.

After going a short distance, the "woman's" hat blew off, and she climbed out of the machine to retrieve it.

Dr. Harris was not prepared for the sight which followed. As the "woman" climbed out of the machine, her skirt caught on the door and several inches of a man's trousers showed, where they didn't belong. Surprised, but scenting trouble, Dr. Harris waited for the "woman" to get down the road for the hat and sped down the road. Looking back he saw the "woman" running into the woods.

At Kenbridge, Dr. Harris opened the suitcase left in his machine and found a complete set of burglar tools and \$5,000 in bills wrapped in a roll.

Needless to say, the authorities were notified and a lookout kept for a strange, well dressed "woman" in the vicinity.

Local detectives, in discussing the case today, expressed the belief that the "woman" was none other than Charles Wilkes, one of the two bank robbers who escaped from the Roanoke jail several months ago while awaiting transfer to the state penitentiary to begin serving long sentences for robbing the bank of Glouster, Va.

Wilkes is a Petersburg boy and is known to have masqueraded in women's clothes several times to come back here, and it is the belief of local police that Wilkes was on his way to Petersburg disguised as a woman when he was met on the road by Dr. Harris.

Tax on Male Visitors

NEW YORK, Jan. 20.—Galante is to be taxed in the Harriet Judson, V. W. C. A. in Brooklyn.

The girls announced today that in order to contribute to the V. W. C. A. fund campaign a luxury tax of 10 cents a head would be levied on male callers. An unchallenged possession of a soda will cost 50 cents, so far for four, 25 cent for each additional.

—Miss Pearl Thomas has returned after a pleasant visit to Norfolk and Richmond.

—Miss Kate Tucker of Norfolk is visiting Mrs. Pearl Thomas.

Cocoon Oil Shampoo For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the skin, makes the hair brittle and is very harmful. Multifield cocoon oil shampoo, which is pure and entirely rease-lose is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls of Multifield will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dirt, dust, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multifield cocoon oil shampoo at any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months. Be sure your druggist gives you Multifield—adv.

—The official and semi-official cardiac sprang into action as the time of the Pope's death and the Rome newspaper correspondents, Cardinal Pizzardo, a newspaperman, the last item, said to the Associated Press correspondent, who was the only American newspaper representative admitted to the intercession: "When the end was near I was called from my chambers and hurried quickly to the pontiff's room. There was a few minutes before six o'clock. I saw the holy father lying on his back. As the editor proclaims him beside the silent and lifeless form I asked that I might tell the news to the press. I thereupon hurried to the anti-chamber, where several newspapermen were awaiting me, and informed them that the pope had just died."

The cardinal was asked at what hour death had occurred, and he replied: "Exactly at this minute."

At this identical moment the bells of St. Peter's struck the first stroke of 6 o'clock.

Body of Pope Lying in State

End Came After Great Agony and Several Hours After First Report of End Was Given Out.

(By The Associated Press)

ROME, Jan. 22.—The body of Pope Benedict was removed today from the Sistine Chapel in the Vatican to Basilica of St. Peter's, where it will remain until the final funeral ceremonies. The transfer was made in solemn state. Thousands are paying homage to the dead pontiff.

ROMA, Jan. 22.—(By Associated Press)—Arrived in full canonicals, with gold amur, gloves and ring, the body of Benedict XV., lies in state in the large room of the poor immediately below the apartment in which he died.

For many hours today the room where the pontiff had made his fight for life gave a continuous stream of visitors, the representatives of foreign nations, high prelates and others. To a late in the afternoon, in the profession, composed of cardinals, cardinals, Swiss Guards, chamberlains and honor chamberlains, the body was solemnly transported down the royal staircase through Clementine hall into the throne room, where it was placed on a raised catafalque, before which the whole diplomatic corps paid due reverence.

The sacristan zampani gave absolution, and the cardinals sprinkled Lysander, while the penitentiaries, including changed prayers, immediately afterward the doors were open to the multitudes desirous of looking for the last time on the departed pontiff.

The sacred congregation convened this morning when the cardinals were informed of the pope's death. With the exception of Cardinal Gaspari, the papal secretary of state, all gathered in Benedict's private apartments. Gaspari, in due and solem form, escorted by the Swiss Guard, and the prelates and acolytes of the reverend apostolic chamber, entered the apartment a few minutes later. He will administer the holy see during the interregnum. With him also was Monsignor Sincero, secretary of the sacred college.

Cardinal Gaspari surrounded by cardinals then proceeded to verify the death of Benedict, extending over the lifeless form a silver wand and crying out: "Stelacomo, Giacomo, Giacomo." He opened the certificate of death and declared: "Dominus Petrus Nestor Mortuus Est," thus announcing officially the pope's death.

On leaving the pontifical chambers, Cardinal Gaspari, still escorted by the Swiss Guard, descended to the sacristy, where the sacred congregation continued, concluding its deliberations at 10 o'clock.

The official and semi-official cardiac sprang into action as the time of the Pope's death and the Rome newspaper correspondents, Cardinal Pizzardo, a newspaperman, the last item, said to the Associated Press correspondent, who was the only American newspaper representative admitted to the intercession: "When the end was near I was called from my chambers and hurried quickly to the pontiff's room. There was a few minutes before six o'clock. I saw the holy father lying on his back. As the editor proclaims him beside the silent and lifeless form I asked that I might tell the news to the press. I thereupon hurried to the anti-chamber, where several newspapermen were awaiting me, and informed them that the pope had just died."

The cardinal was asked at what hour death had occurred, and he replied: "Exactly at this minute."

At this identical moment the bells of St. Peter's struck the first stroke of 6 o'clock.

POPE BREATHED HIS LAST AT 6 O'CLOCK SUNDAY A. M.

ROME, Jan. 22.—Pope Benedict breathed his last at 6 o'clock this morning. The news was hurriedly communicated from the papal bed chamber to the pontifical antechamber and was announced by Monsignor Pizzardo, deputy papal secretary of state, just as the reverend bulls of St. Peter's, overlooking the various courtyard, began telling the hour of 6. Then one by one the bells in Rome's 400 churches joined in the heraldic symphony that marked the passing of the head of the Roman Catholic church.

The end came after a long night of intense agony and suffering, the papal now and then lancing into delirium, the unknown, the long, anxious night. Shortly before midnight, the editor, correspondents, which came from Rome, to receive his son, Giuseppe, an hour afterward, he began to talk again. At 4:15 o'clock the cardinal emerged from the papal chamber into the ante room and the Associated Press correspondent, then end, was awaiting him.

He said: "He is dead." And soon after he said:

RESINOL
Soothing and healing

remedy for
skin ills

Speedily relieves the
smart and sting
of minor skin
injuries, rashes
or chafing.
To bathe the affected parts
use mild cleansing
Resinol Soap

from the superintendent of the hospital in which the young woman was a patient, and stated that "Dixie" seriously ill." Several other telegrams of the same nature were received during the afternoon and Mr. Terrell finally wired for particulars and requested that she be sent home. The next telegram stated that her condition was too serious, but details were not given. A later wire told that the young woman had died.

The body will be sent to this city for burial and is expected to arrive sometime tomorrow. Announcement of the funeral will be made later.

COUGH IS YOUR
DANGER SIGNAL

Chronic coughs and persistent colds lead to serious lung trouble. You can stop them with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with twofold action: It soothes and heals the inflamed membranes and kills the germs.

Of all known drugs, creosote is recognized by the medical fraternity as the greatest healing agency for the treatment of chronic coughs and colds and other forms of throat and lung troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membrane and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the germs that lead to consumption.

Creomulsion is guaranteed satisfactory in the treatment of chronic coughs and colds, bronchial asthma, catarrhal bronchitis and other forms of throat and lung diseases, and is excellent for building up the system after colds or the flu. Money refunded if any cough or cold, no matter of how long standing, is not relieved after taking according to directions. Ask your druggist. Creomulsion Co., Atlanta, Ga.—adv.

Scoop's Column

DRAKES BRANCH, January 23.—(Gospeller Wireless)—First "Skidoo Day" in the new year.

Better give the gas tank and brakes the once-over and put some more wood alcohol in the radiator. Blue Monday and getting colder every minute; looks like snow sure enough this time. In the midst of our gloom a reader of this column of Song called up to inquire what has become of the Amish Road that was going to extend from Danville to Englewood. These long memories embitter us all at times. That was a blue winter spring suddenly on the town by a gentleman prominently connected with the City Council and never taken seriously. He's long on the air business anyway, and we hesitate to call him up for further information—he might just peevet and bang up the picture in our face. We've got so many miles of good wagon roads that we didn't have a couple of years ago, and we are not satisfied with this program and keep on building them. The air line can wait until Henry Ford develops Muscle Shoals and the legislature adjourns sine die. Mustn't tackle too much at once, or try to cover too much territory. Just now Major Anderson is bearing from "back home" every few minutes and may be needed to withdraw his charter bill "by request." Ain't it awful, Junius, how the newspapers prints the facts and "spit the beans" in this enlightened age?

There was a young girl in cretine, she said: "Just look at what I've got on."

Two flamingoes, some bees, seven parrots, four trees, and a lovely big watermelon!"

(He slightly stopped): Where in hell have I seen you before.

She (edito): Darned. What part of hell do you come from?

It would seem that Bill called the boy's hand when he told them some things that would happen after they changed the mode of running the City Government.

Anxious passenger on the Southern Conductor: Do you have many wrecks on this line?

Conductor (reassuringly): Oh, no; you're the first one I have seen for some time.

Guest—Have you a fire escape in this house?

Landlord—Two of 'em, sir.

Guest—I thought so; the fire all escaped from my room last night and I came near freezing.

Old Blue Laws.

In superstitious days, "tis said,

Hens laid two eggs on Monday.

Because hen would lose her head.

That laid an egg on Sunday.

Now our wise rulers and the law

Say none shall wash on Sunday, So Danville folks must dry go.

And wash them twice on Monday.

Guest—Carried Them Out!

The managing editor wheeled his chair around and pushed the button for the office boy.

"Here," he said to the youthful factotum, "are a number of directions from subscribers as to the best way to run a newspaper. See that these ideas are carried out."

And Jimmy, gathering them all into the editorial waste basket, did so.

She's Learning.

"Say, Madeline, this liver's something awful," said Buddy.

"I'm very sorry, mon cherie," answered his French bride. "I speak tomorrow wiz le Everyman."

Abe Koplen says even if a man is bad at figures he may enjoy looking at a good one.

Out in Wisconsin there is a movement on foot to change the name of the Menominee River to Volstead River. Better leave well enough alone. Should they change the name to Volstead the river might go dry.

Say It With Onions.

I love to sing of fragrant things Like onions, and cabbage and cheese; Of red beans and rice, and garlic and spice.

That flavor of fat evening breeze— The cute little adipose breeze.

But ere my song in welkin rings, My tears stream like April showers.

I love you, my Pearl," a youth told his girl.

But said it with cauliflower; Yes, gossy and fat cauliflower.

The onion was the first wireless telegraph.

The Goat-Gitter says, "Business is on the bound." The Goat-Gitter says, "Business is on the limb."

An anonymous contributor sends us the name of a friend of his whom he characterizes as a human squash. We couldn't decipher the name and therefore came to the conclusion that the writer must have been a pumpkin.

PARAGRAPHS.

On the screen they often snarl the screen they marry often.

Our opera is a bore. Their a few to be out of reach.

This expresses a sense of deep means. Right and Pacific.

For safety—see to be skinned dust-laden—usually fallen.

The case of exchange between the two countries is a U. S. case, a thousand nations a day.

Frasch says a Britisher doesn't like Germany "familes."

We are in a race for the largest market. It is the time to be the largest.

A foreign power holds keeps them.

Stamps which dropped dead in the box must have gotten this right number the first time.

The new year is in the air, says the new year is in the air.

The new year is in the air, when the new year is in the air.

Fathers take up in the summer, and up in the winter.

The most extensive thing on earth is making history.

Let's hope the Irish dogs of hell has gone home to rest.

Disabled Soldiers Open Fight Against Veterans Bureau

BY HARRY HUNT

WASHINGTON, Jan. 23.—American disabled war veterans are getting back into the trenches to fight for fair square treatment by the government.

That to date these men have received only hit-or-miss justice no one who has studied cases under the Veterans' Bureau will deny.

Whether responsibility lies with the system or with the men in charge of the system or with failure by Congress to lay down a sensible program and provide the means to care it out, the fact remains clear that thousands of men and their families are suffering from the grossest neglect.

This applies to administering hospitalization, rehabilitation training and disability compensation.

The veterans' new drive for justice was precipitated by:

One, the decision of the bureau to provide vocational training for more rehabilitation cases at government schools to be developed in abandoned army camps.

Two, the farming out of increasing numbers of veterans suffering from mental disorders to state or private asylums or sanitarians housing the criminal and pauper insane, where they are denied care but receive no medical treatment.

Three, the inadequacy of government facilities to provide proper hospitals and care for tubercular cases arising from war service.

Four, action by the bureau in changing men's ratings as to degree of disability and amount of disability compensation without physical examination of the men themselves.

The watch of the veterans will be directed by Robert S. Marx, judge of the superior court of Cincinnati, as national commander of the Disabled American Veterans of the World War.

The first-line defense of the government's forces will be under orders of Colonel Charles R. Forbes, director of the U. S. Veterans Bureau. The first casualty of the conflict is Major Arthur Dean, assistant director of the bureau, who lined up with the disabled veterans' ranks in opposing the organization of rehabilitation schools at old army camps, like the one now under way at Camp Sherman, Ohio.

Although the bureau announced Dean had resigned, his friends quickly said he had not resigned because of his "refusal to subscribe to the scheme of vocational rehabilitation which Director Forbes had inaugurated at Camp Sherman."

Dean's place in the bureau organization was immediately filled with Colonel Robert L. Rees, who was detailed to the service from the War Department. Rees was on Pershing's staff overseas.

Immediately after Dean quit the bureau, the disabled veterans scored by obtaining a report from the appropriation committee of the House against providing money for schools on the Camp Sherman type.

The bureau, however, with administration backing, is expected to attempt to defeat the committee report on the floor of the House.

COLONEL ROBERT L. REES, WHO SUCCEEDS MAJOR DEAN, AS ASSISTANT DIRECTOR OF VETERANS' BUREAU.

The immediate result of this situation will be to throw open in Congress the whole question of federal aid to soldiers of the late war, particularly the disabled veterans.

So prepare for interesting developments during the next few months in

section referred to in anything The World said in relation to the Southward for a Federal Amendment and its strict enforcement.

THE OPTIMISTIC CHINESE.

GREENSBORO, N.C.—Mr. Simonds' analysis of the Shanghai affair is most interesting. He thinks that Japan is at present engaged in an endeavor to share the prestige of the United States in China by demonstrating that this country will not, or cannot, help China in her present difficulties; which being accomplished, Japan will immediately make the necessary concessions and strengthen the whole affair out.

The question immediately arises why is it necessary for Japan to go to so much trouble? It is difficult to conceive of anything more convincing of the resolution of the United States to have no part or participation in settling the disputes of other nations than its course with regard to Europe. Hope evidently springs eternal in the Chinese breast if the Celestials still believe that this country will interfere actively in their behalf.

The United States has turned Sino-Fascist. Its motto still may be "In God we trust" but its foreign policy is frankly that the Irish revolutionaries deserve no place.

"We have no great interest in China, it is true, but none great enough to warrant the course of the nation, and as far as our interest in humanity and International Justice, well, we have been fed up on that sort of thing these three years. China might as well put her trust in France or Italy as in the United States. Oh, we don't mind talkingaternally, but we are pretty well decided to take it out in talk."

WILL SUBMIT STRIKE TO ARBITRATION BOARD

RICHMOND, Jan. 21.—At a conference here yesterday officials of the Virginian Railway and News Company

JUDGE ROBERT S. MARX, NATIONAL COMMANDER OF THE DISABLED VETERANS OF THE WORLD WAR, LEADING THEIR FIGHT FOR JUSTICE.

MAJOR ARTHUR DEAN, WHO RESIGNED AS ASSISTANT SECRETARY OF VETERANS' BUREAU AFTER REPORTED DISAGREEMENT OVER SCHOOLS IN ABANDONED CAMPS.

COLONEL ROBERT L. REES, WHO SUCCEEDS MAJOR DEAN, AS ASSISTANT DIRECTOR OF VETERANS' BUREAU.

respect to:

The Camp Sherman experiment in vocational training.

Two. The government's care of "mental cases" among its veterans.

Three. The whole status of veteran "rehabilitation" work.

accepted the proposal of the city council of Norfolk to submit to arbitration the wage scale under which motormen and conductors on the lines of the company in Norfolk will work.

Employees who quit their posts as respects to the Camp Sherman experiment in vocational training.

Two. The government's care of "mental cases" among its veterans.

Three. The whole status of veteran "rehabilitation" work.

"Naturally the studio above is perched with it," Barry turned away from the window and let the sharp drop. "Mr. Ladd, if you'll just show us through the rest of your apartment we won't trouble you any more tonight."

Barry thanked the artist and bade him goodbye. In the hall Craig produced a handkerchief and wiped his ruddy brows.

"Well, John, we've a nice mess to report at headquarters," he announced in a low tone that the policeman on guard might not hear. Here's a woman shot dead, and every last tenant in the house except the professor seems mixed up in it somehow, though every one of them have lied and pleaded on the real. Who the devil was this Miriam Vane, anyway? Where did she come from and what were the rest of them to her?"

"I think we can guess who Ladd was," Barry whispered as he led his colleague up the stairs once more. "Just an idealistic young fool who let her play with him like a cat with a mouse to please her vanity and then kicked him out when he became inconvenient. He may have killed her, but I don't think so; I think he would have forced the woman he thought he was and protected her with his last breath."

"The woman he thought she was," repeated Craig, pausing on the stairs.

"I think we can guess who Ladd was," Barry whispered as he led his colleague up the stairs once more. "Just an idealistic young fool who let her play with him like a cat with a mouse to please her vanity and then kicked him out when he became inconvenient. He may have killed her, but I don't think so; I think he would have forced the woman he thought he was and protected her with his last breath."

"You're not going to rouse old Griswold again, then, and ask him why he had about his acquaintance with Mrs. Vane?" Barry bent a quizzical glance upon the younger man.

"I am not," the other announced with a smile. "We have young Ladd's word for it that Griswold died, but neither of them were under oath. They're both under guard and in the morning will have them down on the carpet and get the truth out of them."

"That's a good idea," approved Barry. "And while you are about it you might find out what time Miss Shaw goes out and let the professor know. I fancy he'll be waiting to hear."

Craig stared.

"Oh, yes, I forgot that note you slipped under his door. You said something about porch chancing and chemistry. You're not putting anything over me on that, John?"

"Not," Barry smiled.

"I'll put the men on guard outside while you're in there, but I'll kick the door if they see him. Like a modern Santa Claus, perambulating the fire escape with his white whiskers waving in the early morning breeze." That note simply asked him to go into the professor's apartment and his secretaries the professor's wife, and search for traces of a certain chemical compound.

"Just now only just left Miss Shaw's apartment; we hadn't seen either Griswold or Ladd. They're still hidden beneath his breath. You don't suspect her, John?"

Barry shuddered. "I'm afraid so."

Barry waited until the younger man's footsteps had died away in the quiet night air and then turned to the guard.

"Barney, do you know who I am?"

The patrolman nodded.

"All right, Barry broke in. "I take it that your orders for night, Doane, are to keep guard on this apartment here in which the woman was shot unless you hear any suspicious sound within or see something which you think should be investigated."

"That's right," Doane replied.

"Right, sir," Doane replied.

"Very good. You're going to see and hear something suspicious within five minutes, and that something is going to be me. Understand?"

"I don't sir," Doane replied. "But

The STEP on the STAIRS

by ISABEL OSTRANDER

(Continued From Our Last Issue.)

"When his door had closed he was out of the way I rushed up to her; I don't know what I said; I must have been crazy with jealousy and the mystery of it all. I do remember, though, quite distinctly, that she turned on me in a cold fury, forbade me ever to address her again, and entering her apartment shut the door in my face. I descended, let myself in here almost mechanically, and dropped into that chair you're sitting in now, sergeant."

Craig was settling back in his chair with a gesture to Barry, when the latter stood forward.

"Mr. Ladd, as I understand it, your apartment here is a replica of the one just above studio and all. Have you any objection to showing us about?"

"Not at all." In contrast to that of the dead woman, Ladd's studio was hung with pictures and furniture as luxuriously as that of a social dilettante, yet its easel upon which stood an unfinished landscape, and the carved refectory table carelessly covered with paint tubes and smeared cloths showed it to be a workshop no less than hers.

"What color do you call this?" Barry picked up a tube and squeezing a bit of its contents on the palette, he indicated the blotch of reddish brown.

"Burnt sienna," responded the artist, promptly. "I seldom use it—you can see there was none on the palette before—but I always keep a full assortment of colors on hand. It is odd you should

Rail Conductors To Meet In Cleveland

CLEVELAND, O., Jan. 21.—This city has been selected as the 1922 triennial convention city of the Grand Division, Order of Railway Conductors of America, according to word received by the Cleveland Chamber of Commerce from L. E. Sheppard, president of the organization, at Cedar Rapids, Iowa.

"The convention will open sessions May 1 and will continue from three to four weeks," A. J. Kennedy, manager of the convention board of the Chamber of Commerce said. "Upwards of 900 delegates from throughout the United States, Mexico and Canada will attend."

Local members of conductors' organization will make a strenuous effort to induce the convention to select Cleveland as its permanent headquarters and to move its offices here from Cedar Rapids, it was reported. Should this be done, Cleveland then will become the headquarters of all four railroad brotherhoods—the Brotherhood of Engineers; Brotherhood of Railroad Trainmen; and Brotherhood of Locomotive Firemen and Enginemen headquarters already being here.

ASTHMA CURED BY SIMPLE REMEDY

Famous Druggist Discovers Simple Remedy for Asthma and Makes General FREE TRIAL Offer to Readers

Thirty years ago Mr. C. Leavenwood, a widely known Kansas druggist, discovered a simple, easy-to-take prescription for Asthma—he gave it to people who had suffered for years and, to their amazement, they say they were easily cured—these people told their friends, and in this way thousands have found the sure way to cure Asthma. Mr. Leavenwood feels so confident that his prescription will cure in all cases that he generously offers to send a big bottle on 10 days' Free Trial to any reader of this paper who will write for it. If it cures pay \$1.25, otherwise you owe nothing. Send no money—just write to C. LEAVENGOOD, 1820 S. W. Blvd., Rosedale, Kansas, and the big bottle will be mailed immediately.—Adv.

W. H. HILL COMPANY, DETROIT

SLOWLY THRASH OUT SHIPPING BOARD TANGLE

353 Steel Cargo and Passenger Vessels Still Tied Up, Say Figures

WASHINGTON, Jan. 21.—The reorganized United States Shipping Board and Fleet Corporation is slowly but surely emerging from the tangle of difficulties which economic and other conditions forced on it and is today progressing to the goal of an efficient directorate for an American merchant marine, according to J. Barstow Small, vice-president in charge of allocation and charters of the Board.

The difficulties which Mr. Small has in mind, he stated concern chartering of boats, a depression in shipping worse than any before, and a complicated system of allocating and operation of boats. In the hands of private agencies large numbers of shipping board vessels have been tied up or operated with difficulty owing to unprecedented conditions.

Concerning the withdrawal and allocation of these vessels, Small stated that on July 24 there were seventy-five active managing agents of the fleet corporation operating 674 steel ships. Of this number twelve agents were "tramp operators," with a total of 125 vessels in service. Losses on all these vessels were from \$5,000 to \$25,000 per round trip to Europe, totalling \$1,250,000 in June.

Forty-Three Active Agents.

"On January 1, 1922, there were only forty-three active agents handling three hundred and twenty-one ships," Small said. "All tramp steamers have been withdrawn, and the losses in October, the last month for which we have a report, have been cut to \$400,000 and are still being diminished."

From the latter part of July to the present, Small said, approximately 375 steel cargo boats have been withdrawn from service, and about 173 have been allocated, thus leaving about 333 steel cargo and passenger vessels still tied up. These figures are only approximate, as later reports are expected on them.

These boats, it is hoped, will be chartered eventually on more advantageous terms for the Government than has been the case under the old charter system. This system is being supplanted by the bare-boat and time charter as fast as conditions permit. A general reorganization of the chartering machinery has gradually taken place, it is said, with a view to putting this end of the work on a business basis.

The bare-boat charter plan has been handicapped by the hard economic conditions, but at present about twenty-three vessels are operated on this basis turning in approximately \$50,000 a month. With the looked-for improved conditions, it is stated, many other boats are expected to be chartered in this way.

Regarding droghoek, a groundswell in chartering, Small pointed out that some time ago the board decided that it was unfair to privately-owned tonnage to charter board vessels on a bare-boat basis to compete with established coastwise lines. This is due to the fact that the private owner has to charge higher rates owing to his greater overhead cost of operation than the Government fleet.

Small cited the Jones Act, which he says, requires Government vessels to avoid injuring private lines by chartering along lines which would compete with private vessels.

He pointed out that the Jones act must be the guiding rule for all agencies in building up the American shipping industry and indicated that it is along its intended lines the board is now working to a solution of its problems.

Amundsen Gets Ready to Leave

SEATTLE, Wash., Jan. 21.—Final provisioning and equipping of the exploring ship Maud, in which Captain Roald Amundsen, noted Norwegian explorer and discoverer of the South Pole will resume his interrupted Arctic expedition next May, is being completed as the stout little ship lies in the land-locked waters of Lake Union here.

A smashed propeller blade, lost in the ice of the northeastern Siberian coast last year forced Captain Amundsen to bring the Maud to Seattle for repairs. When the journey is resumed the vessel will carry four extra blade so that a similar accident may cause only a temporary halt to the expedition. The Maud will carry provisions for seven years, although the explorer does not expect the trip to occupy more than five years at the most.

The most important of the Maud's equipment in Captain Amundsen's opinion, will be the two airplanes purchased in Norway, and shipped here recently and which will be used in the making of extensive geographic and hydrographic surveys for a thousand miles on either side of the vessel's track through the northern seas.

The primary purpose of the expedition, which is operating under the auspices of the Norwegian government, is to study the movement of the Arctic ice pack, the effect of ocean currents, magnetic influences and other phenomena of the polar regions. The airplanes, Captain Amundsen expects, will be of great value in this work. He said that he would probably use them to reach the north pole should his plan to drift past the pole with the ice pack prove not feasible. A wireless equipment installed aboard the Maud will be used to broadcast a message when he reaches the top of the world.

Captain Amundsen expects to strike immediately into the outward or northern drift of the ice as it leaves Bering Sea next spring, and to swing with the northwesterly current early in the summer.

With the supplies will be Captain Oscar Wisting, sailing master, who stood at his side when the south pole G. Olofson, engineer, Dr. H. W. Scudder, scientist of the expedition, two Norwegian aviators and a crew of six Siberian natives who joined the Maud in 1920.

Two bells of Seven parish church, Devon, Eng., are still sound, though made in 1420.

One home is every man in the rural districts of Ontario has telephone.

He pointed out that the Jones act must be the guiding rule for all agencies in building up the American shipping industry and indicated that it is along its intended lines the board is now working to a solution of its problems.

Amusements

THE FOUR HORSEMEN

Metro's Marvelous Masterpiece, to Be Shown At the Majestic for 3 Days.

Since the days when the first motion picture gave promise of emerging from the cocoon of a freak industry into the butterfly of a true and great art, the world has had dreams of what might be done with the screen.

The audiences who had sat through countless reels of machine-made, warmed-over and stale romance, the exhibitors who had shown such sorts of pictures who could hardly better them because serious artists would not lend their talents to the films—these three constituents of the motion picture world said:

"Some day I hope somebody will put everything he has into making a great picture. He will give a tremendous story into the hands of a director with a sense of both the powerfully dramatic and the sympathetically human in life. He will provide the best group of players obtainable for the play, and forget what it may cost to produce properly."

That, simply and perhaps roughly put, has been the aspiration of those who see and show and make pictures, and, like the visions of the Wright brothers, testing out crude gliders in the sand hills at Kitty Hawk, the miracles of the screen have become real. The passenger airplane inventors dreamed twenty years ago now run on schedule between London and Paris. As for the screen—"The Four Horsemen of the Apocalypse" has been produced.

The novel of the century is the story. It is one that swept over the world in one great rush of popularity. It won on its merits, on its strength of spirit and true delineation of life and its emotions.

Such a story in the hands of a director less masterly than Rex Ingram might have been subjected to falsely theatrical adaptation, but in his transference of it to the screen he has maintained the sincerity and earnestness, the soul of the story; he has preserved the atmosphere with incredible fidelity.

Providing the director with "The Four Horsemen of the Apocalypse" and the most remarkable cast in the history of the stage or screen, Metro sat back and let him work without a thought of expense. The cost of more than a million dollars was paid without a regret for the company realized that it had bought a motion picture production such as the world had dreamed of for nearly a score of years—a picture that stands and promises to stand for many a day, alone in its supremacy.

This remarkable picture which is breaking all records everywhere will be shown for 3 days at the Majestic, commencing Monday night, January 23rd with matinee on Tuesday and Wednesday. Symphony musicians are carried to render the impressive musical score.

WILL STUDY HABITS OF SWORD AND TUNA FISH

LOS ANGELES, Jan. 21.—Built to roam the seven seas in search of the spawning grounds of the tuna and other famous fish of southern California whose habits have remained a deep mystery, the little schooner Gypsy Girl has been launched from a Wilmington shipyard.

The vessel is owned by George Farnsworth, a fishing expert and inventor of the kite fishing system by which tuna were first caught with a red and blue.

Farnsworth has spent twenty-five years on Catalina Island and has had much to do with developing the sport of swordfish and tuna fishing.

Having exhausted the field for his research in Catalina waters, Farnsworth conceived the novel idea of spending from five to ten years investigating the route the fish take after they leave this section, in an effort to find out where they spawn and how far they have to travel to return.

The Gypsy Girl is heavily built. She eight feet draft and eleven feet beam. There are accommodations for ten persons in comfort. Her auxiliary plant is of 100-horse power.

Peasants of those countries where black bread is eaten usually have good teeth.

BIG MOTOR SHIP HAS SUCCESSFUL TRIP

SHANGHAI, Jan. 21.—The ship William Penn, said to be the first motor-ship owned by the United States government and the first vessel of this type to come to China, after visiting Shanghai is proceeding to London by way of the Suez canal. The William Penn is 455 feet, 6 inches long, 60 feet beam and is

equipped with a power plant of 4,000 horsepower, with auxiliaries of Far East from New York at 11 1/2 hours, 300 horsepower that gave the ship an knots an hour.

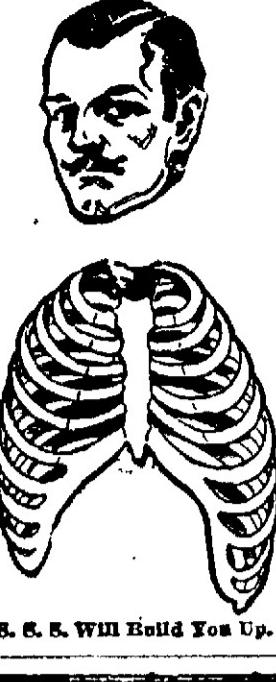

For that troublesome cough. Take PADRUCO. Our perfect emulsion of creosote, 50c and \$1.00. Patterson Drug Co. 1-13 R.R.

equipped with a power plant of 4,000 horsepower, with auxiliaries of Far East from New York at 11 1/2 hours, 300 horsepower that gave the ship an knots an hour.

It wasn't that I wanted to get fat—no. just wanted to put on about 8 pounds more flesh, then I'd be just right. I've nibbled at diets, gorged big meals, I've had raw diets, eaten to the maximum, gorged myself, mortally, with oil, emulsions, swallowed pills, digestion aids, and a score of other 'won't works'. Finally, it dawned on me. None of these things was building up the new red blood cells I needed. I took S. S. S., the greatest red-blood-cell builder ever—just a few spoonfuls a day, and my nerves, instead of strings feel like wires. S. S. S. has the world beat.

S. S. S. is guaranteed purely vegetable in its medicinal ingredients. It has produced amazing results in building up run-down, thin, emaciated bodies and in making men of all ages more plump and beautiful and younger looking. S. S. S. is sold at all drug stores, in two sizes. The larger size is the more economical.

Can You See Your Ribs?

S. S. S. Will Build You Up.

Negro Steals Pair of Pants; Arrested

A negro giving his name as Kenneth Helton was arrested Saturday afternoon by Patrolman W. C. Kessler for the larceny of a pair of trousers from Gilmer's on Main street. The negro was alleged to have entered the store and requested to be allowed to look at some goods. The clerks were busy at the time and while the negro was apparently making a selection, he managed to conceal a pair of trousers and was seen to suddenly leave the building. His action in leaving aroused the suspicion of the clerk and he followed Helton up Main street as far as Opera House alley. Officer Kessler was seen and asked to place the negro under arrest. Another negro who was with Helton made a break and has not been seen since.

Submarines Have Come to Stay, Admiral Ballard, of English Navy, Declares

(By International News Service.)

LONDON, Jan. 21.—"Submarines have come to stay," whether we like it or not," is the emphatic declaration of Vice-Admiral G. A. Ballard, former Director of Operations in the British Admiralty.

In more dramatically phrased, if less vigorous, styles, he is taking up the cudgels after the fashion of the late Admiral Fisher who conducted a famous letter-writing campaign on the thesis that submarine and aeroplanes had negatived the capital ship. His war cry was "Scrap the lot!"

Ballard does not go so far as his one-time chief, but he is hammering relentlessly into the British public the belief that the Empire must have submarines.

"We must avoid the attitude that these vessels are subject for contempt," he declared, referring to the case against them presented by Mr. Balfour at Washington. "They are formidable engines of war, requiring to be treated as such."

"Although in the war not a single British or French battleship was sunk by German guns more than a dozen met their fate either in direct encounter with submarines or by mines than submarines alone could have placed where they were."

"That in itself furnishes conclusive evidence of the effectiveness of the submarines, even when used in a perfectly legitimate way, as we used them ourselves. Moreover, this evidence does not stand alone, for the

moral effect of submarines is very great apart altogether from their threat to merchant ships.

"Had they never existed it is almost certain that we should have forced our way into the Baltic and by attacking or menacing the German rear, altered the entire course of the war.

"Again, it was the fear of submarines that affected the whole movements of the Grand Fleet and compelled us to drain all other war areas of destroyers in order to protect our battleships, with the result of seriously weakening our position in those areas. And yet again, it was the German submarines that forced the withdrawal of our heavily-armed ships from advantageous bombarding positions outside the Dardanelles after the Majestic and the Triumph had been sunk.

"The claim that fifteen million troops were safely conveyed across the Channel proved very little against submarines, for these narrow waters are especially favorable for defensive precautions, and our precautions were conducted on a specially extensive scale. It was far otherwise in the Mediterranean, where one troopship after another was sunk, and where, had it not been for the arrival of the Japanese destroyer flotilla to assist the Allies a situation would have been reached early in 1917 in which the safety of all reinforcements and supplies for the eastern theatres of war would have been seriously jeopardized."

vast wealth and when came to the Russian Imperial court at Petrograd their presents in gold and jewels surpassed easily the treasures of that gorgious country.

For two centuries the Russians tried in vain to conquer these war-like peoples and only in 1873 was Khiva humbled and its Khans made subject princes of Russia. But they retained for their conquest of Khiva, Bokhara, and the rest of the territory known for the past 60 years as Russian Turkistan.

Hevdiar, successor to Tamerlane formed at Tashkent, after the approved Bolshevik manner, and later was one of the richest of the Mohammedan rulers of Central Asia. As he is nearly 80 years old, he may die there.

For the past two years the Soviet influence has been slowly tightening its hold on old Russian Turkistan under General Doutoff, aided by 100,000 German war prisoners. First, a Soviet revolutionary committee was as in Baku and Tiflis, at the point of the Red Army's bayonet.

The Emir of Bokhara was reduced to a figurehead, though still held as a possible religious successor to the Sultan of Turkey.

Hevdiar was unseated in his rule by the new order but when his advisers showed him how the palace walls were falling about him, he got together the choicest of his inherited jewels, his favorite wives, a large stock of his royal robes, together and started overland to reach it. At the depot in Bokhara, the Cheka, or secret police, swooped down upon him, robbed him of his wives, his jewels and gold, and made him prisoner with his 20-year-old son and heir apparent.

Both were put aboard the train under heavy guard and sent to Moscow, to the old convent prison of Pokrowsky, where they have since been.

With heavy white beard, the Khan maintains his proud bearing and still looks the part of a great ruler in exile. Silent and uncomplaining, after the manner of his people, he sometimes attends the concerts organized for the prisoners.

New Dry Law to Pass by a Big Majority—Hepburn

RICHMOND, Jan. 22.—The amendments to the Mapp Act, fostered by the Anti-Saloon League and introduced in the General Assembly by Senator G. Walter Mapp and Delegate Parke P. Deans, will pass by an overwhelming majority, according to a statement issued yesterday by Rev. David Hepburn, superintendent of the Anti-Saloon League.

"The character and standing of the patrons of the prohibition measure are a guarantee that the legislation proposed is wise," Mr. Hepburn declared, "and it should be passed by an overwhelming majority of the members of the Legislature. A canvass of the lawless element has few friends and supporters in that body." "Law enforcement is of paramount importance in Virginia now," Mr. Hepburn said.

"The lawless liquor crowd is flaunting its defiance of constituted authority," he asserted, "and the law enforcement officials express their inability to cope with the present conditions, because the existing enforcement law makes their task not only hazardous but almost impossible."

Mr. Hepburn, in his statement, took to task "a certain element of the Virginia press which continually ridicules prohibition and continually enforces official." He expressed the hope that the press will give a "square deal" to the pending legislation, "construed and introduced by men of experience and ability, free from their constituents who are demanding in no uncertain terms the repeal of the obnoxious Deal Seizure Law, which has made Virginia a paradise for the notorious outlaws engaged in the illegal manufacture and sale of liquor."

Mr. Hepburn invited the Virginia newspapers to give their support to the measure which has been introduced, "which will make it easier for local officials to enforce the law than to enforce it."

Leake Has Replied to Brenaman Letter

RICHMOND, Jan. 22.—David H. Luke, campaign manager for Harry St. George Tucker during the gubernatorial primary of last summer, has written Colonel S. D. Timberlake, of Staunton, denying emphatically statements made by J. N. Brenaman, secretary of the State Democratic committee, regarding Mr. Tucker's failure to take the stump for E. Lee Trinkle last fall.

Mr. Luke denies that he was "delegated" by the speakers' bureau to invite Mr. Tucker to make speeches saying that "it stands to reason that I had been delegated to take the stump with Mr. Tucker I would have done so."

Declining by saying that he had been unable to obtain from Mr. Brenaman a copy of his letter to Mr. Gleason, and which was published in the Staunton newspapers, Mr. Leake commented:

"I was a member of the speakers' bureau during the last campaign, and I recall, at one of the meetings the question was brought up, I think by myself, as to why Mr. Tucker had not been requested to speak. To this Mr. Brenaman replied that Mr. Tucker had not volunteered his services, and that he did not believe his services were available. He replied emphatically that I felt quite sure that Mr. Tucker would speak if called upon."

Mr. Leake then says that he was at no time delegated to invite Mr. Tucker, and that if the latter was invited to speak it was without the writer's knowledge.

Uncle Sam's Latest Victim of Capital's Rapacious Landlords

WASHINGTON, Jan. 22.—Additional evidence of soaring rental charges in the national capital was given today to the Senate by Senator Smoot, Republican, Utah, who said the owners of the building which houses the department of justice had proposed an increase of "only some four hundred or five hundred percent" when the lease expires in June.

Senator King, Democrat, Utah, suggested that the Government appeal the case to the district rent commission.
